V2 Development Report

CONFIDENTIAL - CLIENT REVIEW

February 28, 2026

React Native + Expo + Firebase

Version 2.0

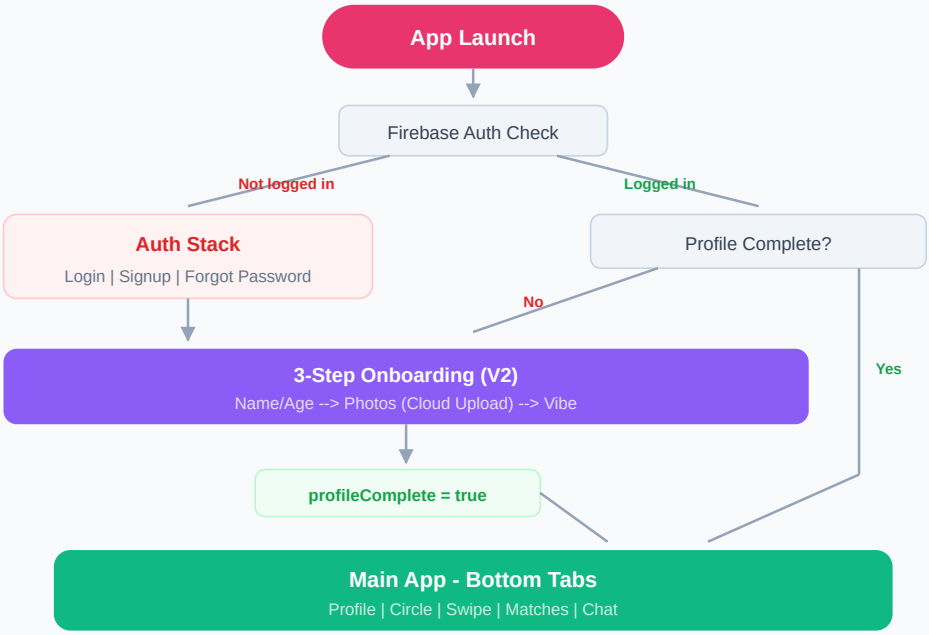
Project Overview

30+	5	12	0
SCREENS	PHASES	SERVICES	BUILD ERRORS

Technology Stack

- React Native
- Expo
- Firebase Auth
- Cloud Firestore
- Firebase Storage
- React Navigation
- Reanimated
- expo-av

App Architecture



Security Features

Authentication

Firebase Auth with email/password. Forgot password via email reset link. Session persistence.

Database Rules

Users can only read/write their own data. Match data restricted to participants only.

Storage Rules

Photos limited to 5MB, image-only. Users can only upload to their own folder. All auth users can view.

Development Phases

PHASE 1 - FOUNDATION

Light/Dark Mode System

- Built ThemeContext with auto system preference detection
- Refactored all 30+ screens to use dynamic useTheme() hook
- Redesigned bottom tab navigation with floating pill style

PHASE 2 - ENGAGEMENT

Voice React Feature

- Hold-to-record voice notes with haptic feedback
- Voice React on every prompt card - triggers high-intent Super Like

PHASE 3 - UX OVERHAUL

Streamlined 3-Step Onboarding

- Reduced from 7+ steps to 3 steps - 60% less friction
- Removed legacy IntentSliders, OkWithBubbles, SelfConcernsBubbles

BEFORE (V1) - 7+ STEPS

```
1. Name/Age
2. IntentSliders (total 100%)
3. OkWith Bubbles
4. SelfConcerns Bubbles
5. Photos  6. Prompts
7. Profile Check
Users drop off at step 3-4
```

AFTER (V2) - 3 STEPS

```
1. Name & Age
2. Photos & Prompts (auto upload)
3. Vibe Selection
Done! Enter the app

60% less friction
Higher completion rate
```

PHASE 4 - CLOUD INFRASTRUCTURE

Firebase Storage Photo Upload

- Photos auto-uploaded to Firebase Storage during onboarding
- Other users can now see profile photos on swipe cards
- Each photo compressed to ~250KB (1080px JPEG at 75% quality)

BEFORE

```
uri: "file:///local/img.jpg"
type: "local"
```

AFTER

```
uri: "https://firebase..."
type: "remote"
```

```
Only visible on YOUR device
Other users see blank cards
```

```
Visible to ALL users
Loads on any device instantly
```

PHASE 5 - SECURITY

Forgot Password + Security Rules

- Added "Forgot password?" on Login screen - Firebase email reset
- Comprehensive Firestore + Storage security rules deployed

Files Modified

FILE	ACTION	CHANGE
storageService.js	NEW	Firebase Storage upload / download / delete
VoiceRecorder.js	NEW	Hold-to-record voice component
ThemeContext.js	NEW	Dynamic light/dark mode system
storage.rules	NEW	Firebase Storage security rules
PhotosPromptsScreen.js	MOD	Cloud upload on "Next" press
EditPhotosScreen.js	MOD	Upload on add, delete on remove
LoginScreen.js	MOD	Added Forgot Password flow
SwipeScreen.js	MOD	Voice Reacts on prompt cards
profileCompletion.js	MOD	V2 validation requirements
App.js + 20 screens	MOD	ThemeProvider + dynamic colors
firestore.rules	MOD	Complete security rules

Database Structure

COLLECTION	KEY FIELDS	PURPOSE
users/{uid}	name, age, photos[], prompts[], vibe[], profileComplete	User profiles
matches/{id}	participants[], createdAt	Matched pairs
chats/{id}/messages	senderId, text, createdAt	Chat messages
app_config/public	max_photos, max_prompts, bubbles	Admin settings

Storage Cost (INR)

Each user: max 6 photos x ~250KB = ~1.5 MB. Free limit: 5 GB from Google.

USERS	STORAGE	MONTHLY COST
1,000	1.5 GB	**Rs. 0 (FREE)**
3,000	4.5 GB	**Rs. 0 (FREE)**
3,333	**5.0 GB**	**Rs. 0 (FREE LIMIT)**
5,000	7.5 GB	**~Rs. 55/mo**
10,000	15 GB	**~Rs. 265/mo**
1,00,000	150 GB	**~Rs. 3,200/mo**

First 3,300+ users are completely FREE. At 10,000 users the cost is ~Rs. 265/month - less than a Netflix subscription.

Unique Selling Points

Voice Reacts

No other Indian dating app offers voice-note reactions on prompts. Creates deeper, more personal connections.

3-Step Onboarding

Most dating apps ask 20+ questions. Our 3-step flow means higher signups and less drop-off.

Cost Efficient

Firebase free tier supports 3,300+ users at zero cost. Scales affordably beyond that.
